

5th Grade Unit 7

ELA and Math Objectives

ELA:

1. Students will be able to explain what a fiction text explicitly states and what the text implies or hints at.
2. Students will be able to locate and quote language from a nonfiction text when explaining what the text says.
3. Students will be able to access information from multiple print or digital sources to find an answer to a question.
4. Students will be able to describe how individuals or events within a historical, scientific, or technical text are connected.

5th Grade Family Guide Pages: 6 and 15

MATH:

1. Students will be able to multiply fractions by whole numbers.
2. Students will be able to multiply fractions by fractions.
3. Students will be able to find the area of a rectangle with fractional side lengths using different strategies.
4. Students will know that multiplying whole numbers and fractions result in products greater than or less than one depending upon the factors.
5. Students will be able to solve real world problems involving multiplication of fractions and mixed numbers.

5th Grade Family Guide Pages: 30, 31, 32, and 34
