

3rd Grade Unit 8

ELA and Math Objectives

ELA:

1. Students will be able to formulate and answer questions from literature and informational text to demonstrate understanding.
2. Students will be able to describe the sequence of historical events in terms of cause and effect.
3. Students will be able to describe the sequence of scientific ideas in terms of cause and effect.
4. Students will distinguish between key details and important points.
5. Students will be able to compare and contrast the key details in two different texts on the same topic.
6. Students will be able to compare and contrast the most important points in two different texts on the same topic.
7. Students will be able to write a narrative piece that uses dialogue to reveal actions, thoughts, and feelings, uses object pronouns, and subject-verb agreement, pronoun-antecedent agreement, spelling, capitalization, and punctuation correctly. (Students can use a graphic organizer)

3rd Grade Family Guide Page(s): 6, 11, 12, and 16

MATH:

1. Students will know that shapes can be partitioned into equal parts
2. Students will be able to identify the fractional name of each part
3. Students will be able to partition a shape into parts with equal areas in several different ways
4. Students will be able to recognize a unit fraction such as $\frac{1}{4}$ as the quantity formed when the whole is partitioned into 4 equal parts
5. Students will be able to define the interval from 0 to 1 on a number line as the whole
6. Students will be able to divide a whole on a number line into equal parts; Recognize that the equal parts between 0 and 1 are fractions

7. Students will be able to represent each equal part on a number line with a fraction

3rd Grade Family Guide Page(s): 30
