

3rd Grade Unit 9

ELA and Math Objectives

ELA:

1. Students will be able to compare and contrast the plot in stories written by the same author about the same or similar characters.
2. Students will be able to compare and contrast the key details in two different texts on the same topic.
3. Students will be able to summarize a nonfiction text.
4. Students will be able to quote accurately from a text when explaining what the text specifically says.
5. Students will be able to identify how character interaction led to events.
6. Students will be able to write a narrative piece that develops characters through dialogue, actions, thoughts, and feelings, as well as responses to situations, uses possessive pronouns, plural nouns, subject-verb agreement, pronoun-antecedent agreement, spelling, capitalization, and punctuation correctly. (Students can use a graphic organizer)

3rd Grade Family Guide Page(s): 6, 7, 8, 11, and 12

MATH:

1. Students will be able to describe and recognize equivalent fractions.
2. Students will be able to compare fractions by reasoning about their size to determine equivalence.
3. Students will be able to use number lines, size, visual fraction models, etc... to find equivalent fractions.
4. Students will be able to recognize whole numbers written in fractional parts on a number line.
5. Students will be able to recognize the difference between a whole number and a fraction.
6. Students will be able to express whole numbers as fractions and explain how a fraction is equivalent to a whole number.
7. Students will be able to compare two fractions with the same numerator and denominator by reasoning about their size.
8. Students will be able to record the results of comparisons using symbols $>$, $=$, or $<$.

9. Students will be able to explain what the numerator and denominator in a fraction represents and its location
