

5th Grade Unit 8

ELA and Math Objectives

ELA:

1. Students will be able to draw inferences from literature or nonfiction text.
2. Students will be able to determine the meanings of words and phrases as they are used in a text.
3. Students will be able to compare and contrast the overall structure of concepts or information in two or more texts.
4. Students will be able to gather information from multiple print or digital sources to solve a problem.
5. Students will be able to write an informative/explanatory piece that clearly conveys information, links ideas within and across categories of information using words, phrases, and clauses, and provides a concluding statement or section that follows from the information or explanation presented, using correct spelling, capitalization, punctuation, and sentence structure.

5th Grade Family Guide Pages: 6, 8, 9, 12, and 15

MATH:

1. Students will be able to divide by a fraction.
2. Students will be able to use a visual model to divide a fraction by a whole number.
3. Students will be able to solve word problems involving division of whole numbers leading to answers in the form of fractions or mixed numbers.
4. Students will be able to solve real world problems involving division of unit fractions by whole numbers other than 0 and

division of whole numbers by unit fractions using strategies such as visual fraction models and equations.

5th Grade Family Guide Pages: 30, 34, 35, 36, and 37
