

5th Grade Unit 9

ELA and Math Objectives

ELA:

1. Students will be able to compare and contrast characters, settings, and events in a text and provide details from the text.
2. Students will be able to identify different points of view within a text.
3. Students will be able to identify the characteristics of different genres: folktale, myth, and poem.
4. Students will be able to describe how events within a historical, scientific, or technical text are connected.
5. Students will be able to provide examples of the narrator's point of view.
6. Students will be able to write or speak about a topic accurately after reading several texts on the topic.
7. Students will be able to write an informative/explanatory piece that has a developed topic with facts, definitions, concrete details, quotations, or other information related to the topic, using correct spelling, capitalization, punctuation, and sentence structure.

5th Grade Family Guide Pages: 8, 11, 13, and 15

MATH:

1. Students will be able to recognize and convert units of measurement within the same system.
2. Students will be able to divide and multiply to change units.
3. Students will be able to solve multi-step, real world problems that involve converting units.
4. Students will be able to identify benchmark fractions.
5. Students will be able to make a line plot to display a data set of measurements in fractions of a unit.

6. Students will be able to solve problems involving information presented in line plots which use fractions of a unit by adding, subtracting, multiplying, and dividing fractions.

5th Grade Family Guide Pages: 38 and 39
