

5th Grade Unit 6

ELA and Math Objectives

ELA:

1. Students will be able to explain how the point of view of the narrator or speaker in a text influences how events are described.
2. Students will be able compare and contrast stories in the same genre in terms of how they treat a similar theme or topic.
3. Students will be able to describe how main ideas are supported by key details in nonfiction text.
4. Students will be able to analyze multiple versions of the same event or topic.
5. Students will be able to access and organize information from several texts about the same topic.

5th Grade Family Guide Pages: 11, 13, and 15

MATH:

1. Students will be able to generate equivalent fractions to find the like denominator.
2. Students will be able solve addition problems involving fractions (including mixed numbers) with like and unlike denominators using an equivalent fraction strategy.
3. Students will be able to solve subtraction problems involving fractions (including mixed numbers) with like and unlike denominators using an equivalent fraction strategy.
4. Students will be able to solve word problems involving addition and subtraction of fractions with unlike denominators.

5th Grade Family Guide Pages: 28 and 29
